He had been travelling and teaching throughout the South where people are afraid and have a right to be. He related a story of how a white woman had told her maid in Tampa, Florida, that her minister had told the white congregation "Jesus was not one of us." After 400 years why are the white people concerned about the color of Jesus. If one preacher is telling his congregation the truth about Jesus not being white so are many others. It is only because they did not want us to know more about Jesus than their own people. Negroes are finding out because ELIJAH MUHAMMAD is teaching Islam in America today.

One of the main reasons the so-called Negro is still catching hell from the white man and remains in such a sad shape spiritually, mentally and economically is due to his inability to analyze and get complete understanding of all the current events that are happening every day. ELIJAH MUHAMMAD teaches that all Negroes educated in America are taught the white man's way of life even about the four freedoms that every so-called American is entitled to yet will not allow the Negro to enjoy anyone of them except religion. Most Negroes never heard of their original religion which is Islam until a short time ago. At the beginning of slavery they (white man) murdered our ancestors in order to conceal our true identity.

The so-called Negro is so hard hearted, so in love with his enemy and he does not even know who is his enemy. My subject is "Why". Many of us see things going on around us every day but we do not even try to realize what is happening. Why is every other black race on earth trying to separate from the white race and the so-called Negro trying to get closer to the white race? Most Negroes think civil rights means marrying white women or otherwise associating with them. Why is the Negro so much against his own kind. Why are they so easily misled by their white slavemasters. Black men ruled the earth trillions
