ALL INFORMATION CONTAINED  
HEREIN IS UNCLASSIFIED  
EXCEPT WHERE SHOWN  
OTHERWISE

The Nation of Islam (NOI) publishes a newspaper, "Muhammad Speaks," at Chicago, Illinois, on a semi-monthly basis. This newspaper carries the fanatical views and hate propaganda of this antiwhite organization (see SAC Letter No. 62-38 (A), dated 7-11-62 for an appropriate characterization). In the issue of "Muhammad Speaks" dated 7-31-62, on page 22, appears a photograph of three individuals identified as Pierre Gaisseau, French film producer-director; Chester Himes, noted author; and Muslim Minister Malcolm. The lead line indicates "FRENCH FILM PRODUCER sees results of Police brutality." The article following indicates Gaisseau arrived in New York from Paris to seek material for his first feature-length movie about Harlem and a two-hour documentary on the American Muslims to be shown to French television audiences. The movie is to be based on a story written by Himes. According to the article, Malcolm is showing pictures of a Muslim killed in Los Angeles on April 27 (1962) by police to a "greatly perturbed Pierre Gaisseau" and that Gaisseau evinced interest in the Los Angeles police brutality story where "seven unarmed Muslims were gunned down" (see SAC Letter 62-30 (A), dated 5-25-62 for details concerning this incident).

of an article he wrote which appeared in the May, 1944, issue of "The Crisis," then described as the official organ of the National Association for the Advancement of Colored People. The article, entitled "Negro Martyrs are Needed," advocated revolutionary action on the part of Negroes to bring about the overthrow of our present form of government and the creation of a communistic state.
